

Moxie for Men

Movie for Men is into fitness-facial fitness. And to that end, the company has created three different, very cool lines for the guy-on-the-go who wants to look great but doesn't want to look like he's spent even one minute doing it. The Restōr Line renews and refreshes with its three signature products: Get rid of dark bags under the eyes with Double-Shot Caffeinated Eye Cream (\$45); smooth the surface of the skin with Erazer

Microdermabrasion Cream (\$65); and pull out the "big guns" for anti-aging magic with Reloaded Age Fighting Serum (\$85). They're available as a gift set for \$184.66 at Smooth Synergy Spa (686 Lexington Ave, Suite 3N, btw. 56th & 57th Sts., 212-397-0111; www.smoothsynergy.com). The varied and extensive menu of treatments at the cosmedical spa (yes, a doctor is in residence-internist George Liakeas) include everything from laser hair removal to photo rejuvenation to capillary treatments. (A favorite among the female clients at the spa is a specialty for the summer: the "Fanny Facial," for getting your derriere ready for beach days and bikinis.)
