SMOOTH SYNERGY™

COSMETIC & DAY SPA

686 Lexington Avenue, Suite 3N, NY, NY 10022

212.397.0111 www.smoothsynergy.com

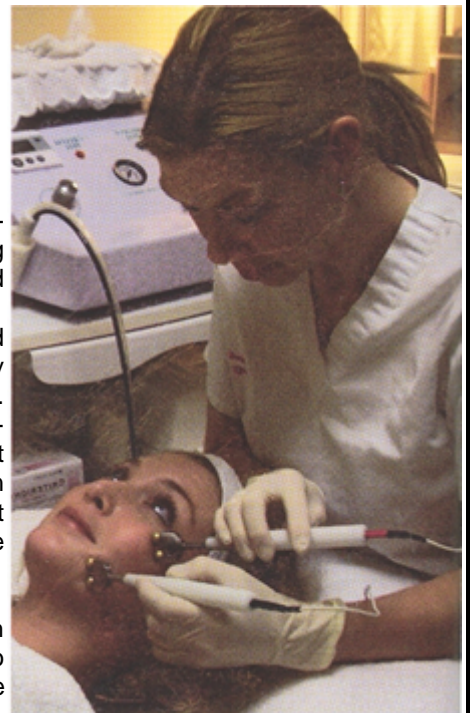

The stresses of modern day life can be lessened by allowing yourself time to renew, revitalize and restore your body back into balance. SMOOTH SYNERGY day spa will pamper your body, mind and spirit. A cosmetic and medical day spa, they offer a full range of services including: skin rejuvenation, body treatments, and dermatologist formulated skincare products.

Amongst many services they offer: facials and peels, spider vein removal, microdermabrasion, collagen and restylane, BOTOX cosmetic injections, microcurrent facelifts, body lifts and wraps, ultrasound treatments, laser hair removal, sclerotherapy, acupuncture, endermologie massages, ultrasound treatments, mesotherapy and organic spray tanning!

Try the facial experience! Mastered by medically trained therapist, Beth Parker, an eight step process leaves your skin fully rejuvenated and wonderfully soft within the hour. The session begins with a deep cleansing, exfoliation and extraction, but the true secret to this medical facial regime, is the ultra sonic scrubber, used to buff the dead skin cells away and balance the skin tone. Designed for your skin type a masque is then applied, either a clay for oily skin or cucumber for normal skin.

Afterwards, an eye synergy cream and firming serum for fine lines and wrinkles is applied. For the final touch, a head and neck massage fully heals your inner aura. Mineral cream or powder is suggested right after to leave the skin with a healthy glow that lasts for the rest of the day.

The goal of Smooth Synergy day spa is to bring their clients the most innovative and effective medically proven treatments at an affordable price. Sought out with the most up-to-date technology for their cosmetic modalities, Smooth Synergy cares for its clients' ultimate comfort, confidence, and satisfaction.
