SMOOTH SYNERGY

"A regular client recently told us that she'd never had a more personal spa experience than here at Smooth Synergy. In addition to noting our well-trained technicians, she said what really keeps her coming back is that we make her feel important and extremely welcome.

Smooth Synergy Cosmedical Spa offers effective skin care solutions in a serene and rejuvenating setting. Our on-site medical doctor administers all cosmetic injectables and works in tandem with our team of highly trained estheticians and technicians to ensure our clients' comfort confidence and satisfaction. That's the thing about New York; we have the best of the best when it comes to service and offer a high level of personal attention. It's that combination that draws people here in the first place, and keeps them returning again and again."

-Nicole Contos and
Dr. George Liakeas. co-owners
