Palcinka Product Rating Guide

The Fanny Facial at Synergy Spa

Tester: African-American late 20's within 10 lbs of target weight.

"I really loved my Fanny Facial at Smooth Synergy. My treatment specialist first applied a nice scrub to the derriere area as well as the back of the thighs. I found it invigorating and relaxing at the same time (she was also very conscious to keep other areas covered so I didn't feel uncomfortable at all). Next, she attached the electronic probes to my upper and back thigh areas that have a tingling sensation of being massaged. After about 15 minutes she switched the probes to a strong type that gave more of an aggressive pulling on the skin which she said is supposed to mimic 1 hour of aerobic exercise. Afterwards, I did feel tighter and the next day I still had that toned feel. My skin stayed soft and glowed for a few days as well. Another plus, the staff was gracious, welcoming and competent. I will definitely be back for more and to try some of their other treatments... P.S. a "little bird" let me know even La Naomi (Campbell) loves to go there when she wants to be low key, for effective facials!" – R.B.

Smooth Synergy Spa is located in New York City: 686 Lexington Ave. 212-397-0111
