Posted November 29, 2006

To cash on the cosmetic market spas are coming out with a series of non-invasive services. These services are seasonal with claims of unique or exclusive service, on offer. But the dermatologists are indifferent and suspicious of these therapies. Smooth Synergy of New York is offering a new fanny facial which is exclusively for the buttocks.

### Highlights of Smooth Synergy's buttock facials

- a. The buttock facials starts with a massage of the backside using exfoliating papaya and mint scrub.
